PRSPKTV Designs

FOR BUSINESSES, SCHOOLS & PRINT FARMS

3D printers that keep printing.

PRSPKTV Designs keeps FDM 3D printers running for design studios, fabrication shops, schools, makerspaces and print farms. We handle tune-ups, repairs, upgrades and fixed-price maintenance plans, so your team spends its time printing parts, not fixing machines. Every service ends with a test print and a written service log for each printer.

THE STUDIO

PRSPKTV Designs is an industrial design engineering studio in Amsterdam. Alongside design work, we service and maintain FDM 3D printers.

PRINTERS SERVICED

UltiMaker, Prusa, Bambu Lab

Creality, Elegoo, Anycubic

Raise3D

Other FDM printers on request

SERVICE OPTIONS

On-site in Amsterdam and surroundings

Visits booked within 3–5 working days

Rush service, same or next working day

CREDENTIALS

9+ years operating, maintaining, and repairing 3D printers

WHAT WE DO

Preventive tune-ups
Cleaning, lubrication, belt tension, bed leveling and calibration to stop failures before they start.

Repairs & diagnostics
Clogs, hotends, extruders, heaters, sensors and first-layer problems, quoted before any work begins.

Upgrades & firmware
Firmware updates, input shaping and new printer setup with slicer profiles.

Maintenance plans
Fixed monthly price per printer, with scheduled visits, included repair time and fast response.

School & lab fleets
Fleet tune-up visits, summer refurbishment during the zomervakantie and staff training.

Service records
A log per printer with hours, parts replaced and findings, plus a yearly fleet health report.

WORK PLANS & PAYMENT OPTIONS

Diagnostics
We find the fault and quote the fix. The fee is credited to the repair.
Suggested for any printer with an unclear fault

Flat rate
A fixed price per job for common work like tune-ups and nozzle swaps.
Suggested for home users and hobbyists

Plans
A monthly price per printer with scheduled visits and included repairs.
Suggested for businesses and print farms

One-time fleet visits
A visit fee plus a per-printer charge. No contract needed.
Suggested for schools, libraries and makerspaces

HOW IT WORKS

1. **Contact** — Tell us your printers, how many and what is going wrong.
2. **Check** — A diagnostic or free fleet check, then a fixed quote.
3. **Service** — At your location, with no work beyond the quote without your OK.
4. **Log** — A test print and a service log for every printer.

GOOD TO KNOW

- Plans: pay monthly or quarterly
- Pay annually: 2 months free
- Jobs: iDEAL, PIN or invoice
- 3-month labor warranty
